

Fluid Temperature Sensors

Originally engineered for automotive on-engine applications, these sensors offer exceptional durability and precision. The sensors are versatile, making them ideal for industrial and heavy vehicle off-road (HVOR) applications as well. With robust construction, they ensure reliable performance in the most demanding environments.

Features:

- Operating Temperature: -40°C to 150°C
- Connector: Metri-Pack 150.2
- Mating Connector: APTIV (Delphi) 12162193
- Connector Header: ULTEM 2300
- Threaded Shell: Brass CDA 345

Applications:

- Engine coolant
- Engine oil
- Engine fuel
- Hydraulic oil
- Gearbox oil
- Liquid cooling systems
